

CUBBECO FAMILY DAY CARE PROGRAMMING

The programming works with a Theme during each 2 weeks and the activities are done with each child's interests.

Cubbeco FDC is committed to help the improvement of children's self-esteem specially through Drama techniques as: listening and give to them a opportunity to express themselves, motivate them to think and be creative to become a good problem-solvers.

Talking to them, explain their questions and ask their opinion about things related to their ages.

Through talking and listening Drama techniques the children have the opportunity to build their personality and be able to be assertive in their decisions.
